Vietnamese pork salad

● Pork ● Vietnamese

INGREDIENTS

- Golden Caster Sugar - 1 tsp
- Lime - Juice of 2
- Red Chilli - 1 chopped
- Coriander - Handful
- Sesame Seed Oil - 1 tablespoon
- Fish Sauce - 1 tablespoon
- Soy Sauce - 1 tablespoon
- Pork Tenderloin - 500g
- Vegetable Oil - For brushing
- White Cabbage - 1/4
- Cucumber - 1 chopped
- Celery - 5 chopped
- Spring Onions - 3 sliced thinly
- Red Chilli - 1 chopped
- Lemongrass Stalks - 2 chopped
- Lime - Zest of 1
- Coriander - Handful
- Mint - Handful

HOW TO COOK?

step 1

The day before: make the dressing. Put the sugar and lime juice in a pan with 1 tbsp water and bring to the

- Spring Onions - 3 sliced thinly
- Red Chilli - 1 chopped
- Lemongrass Stalks
- Lime - Zest of 1
- Coriander - Handful
- Mint - Handful

HOW TO COOK?

step 1
The day before: make the dressing. Put the sugar and lime juice in a pan with 1 tbsp water and bring to the boil to dissolve the sugar. Add the chilli and coriander and stir well, then pulse in a blender until smooth. Tip into a bowl, then stir in the sesame oil, fish sauce, soy sauce and sesame seeds to make a dressing. Cover and chill until needed.

step 2
Two hours before serving: heat a griddle pan. Preheat the oven to 200C/gas 6/fan 180C. Brush the pork with oil and griddle on all sides for a few minutes until seared. Transfer to a baking tray and put in the oven for about 10-12 minutes until cooked through. Cool, thinly slice against the grain of the meat. Tip into a bowl and pour over half the dressing.

step 3
To serve: toss the remaining salad ingredients in a bowl with the remaining dressing. Pile on to a platter, top with the pork slices and spoon over any juices.

About Savour
Savour AI
Version: 1.0.0+1
Savour is more than just a recipe app—it's your intelligent cooking companion, built from the ground up with Flutter to deliver a seamless cross-platform experience. Born from a Mobile Computing semester project, Savour addresses a universal kitchen dilemma: the frustration of getting lost in a recipe, juggling between text and a separate video, or wishing for instant help when a step goes unclear.
tabs, scrubbing through long videos, or frantically

project, Savou[redacted]versal kitchen dilemma: the frustration of getting lost in a recipe, juggling between text and a separate video, or wishing for instant help when a step goes unclear.

The Problem We Solved: Cooking should be joyful, not confusing. Traditional apps leave users switching tabs, scrubbing through long videos, or frantically searching for clarification mid-chop. We identified a need for an integrated, guided cooking experience that reduces stress and boosts confidence in the kitchen.

Our AI-Powered Solution: Savour elegantly combines three key features to create a cohesive cooking journey:

Complete, Curated Recipes: Discover a wide range of dishes with clear, structured ingredient lists and step-by-step instructions.

Integrated Video Tutorials: Watch precise, step-along videos directly within each recipe, so you can see the technique exactly when you need it.

This project was developed as part of a Mobile Computing semester course, showcasing the practical application of Flutter, Dart, and integrated AI APIs to solve a real-world user experience challenge.
